

Learn how to identify & record butterflies!

Want to know your Red Admiral from your Small Tortoiseshell? Join us on this free workshop to learn how to identify and record butterflies! This event will be suitable for all abilities, from complete beginners to those with a bit more experience. We'll spend the morning indoors learning about butterflies, then go outside in the afternoon to create a new butterfly recording route at Kincorth Hill.

It's hoped that attendees will go on to help with recording butterflies, either in their own areas or at Kincorth Hill.

The event will take place on **Wednesday 21st March** at **Kincorth Community Centre**, between **10am and 3pm**, with time for lunch. If you are only able to make it for the morning you'd still be welcome to attend.

Booking is required. Email Anthony on amcluskey@butterfly-conservation.org or phone 07730221266 (leave a message if there is no answer).

This event is being delivered through Butterfly Conservation's Urban Butterfly Project, and is kindly supported by NESBReC
